

# City Academy High School

## Job Opportunity

Position Title: Secondary Life Science Teacher

Job Description: Full time teaching position at City Academy High School

### Key Responsibilities

- Teach secondary-level life science courses (e.g., Biology, Environmental Science, Anatomy & Physiology).
- Design and deliver engaging, standards-aligned lesson plans that incorporate hands-on experiments and inquiry-based learning.
- Integrate robotics, coding, or engineering concepts into life science instruction where appropriate.
- Facilitate interdisciplinary projects that connect science with technology and problem-solving.
- Support or lead extracurricular activities such as robotics clubs, STEM teams, or science fairs.
- Assess student progress through a variety of formative and summative methods and provide timely feedback.
- Create a positive, inclusive classroom environment that supports diverse learners.
- Collaborate with colleagues on curriculum development and cross-disciplinary initiatives.
- Maintain effective communication with students, parents, and staff.

### Required Qualifications:

- License to teach high school life sciences in Minnesota
- Training or experience working in an urban school
- Training or experience working with a diverse student population
- Able to create, modify, and implement your own curriculum
- Able to collect and analyze data on student performance

### Preferred Candidates:

- Additional content area licensure, particularly physical science
- Graduate degree
- Interested in working in a small school

### Compensation & Benefits

- Competitive salary based on experience and education
- Comprehensive benefits package (health, dental, retirement, etc.)
- Professional development opportunities
- Supportive and collaborative work environment
